

New Fixtures Range.

Based around the DMG 'Luna' Range of Car and Landing fixtures, our new fixtures range offers a high quality, contemporary & stylish finish at home in any market sector from Healthcare through to Residential, Retail and Hospitality.

Standard Fixtures.

- Rounded edges and flat polished stainless steel end caps give the LUNA an elegant and contemporary look.
- Fully Customisable Engraved Load Plates
- 4" (LIP) or 2.8" (LOP) Raffaello TFT Landing Displays as standard
- 7" Giotto TFT Car Display as standard with:
 - Integrated EN81-70 Signalisation
 - Integrated Voice Synthesiser

Standard Pushes.

Our Standard Push Button is the "Macro Twin"

- EN81-70 push button with Braille
- Attractive contemporary finish
- Anti-fingerprint finish
- Black face for maximum contrast
- Twin Illumination: White/Blue or White / Red

Utilise Leading Modernisation Turnaround.

Push Button Upgrade Path.

Upgrade to the 'Sherman Touchless' button to provide additional protection against the spread of viruses and bacteria.

- EN81-70 Compliance is maintained via the high contrast "Brutus Bezel"
- Reduces the contact points with the lift, protecting against the spread of viruses and diseases.
- Touchless or conventional 'push button' operation.

Limitations: Our ex-stock COP's are limited to a maximum of 10 Floors utilising the 'Macro Twin' push buttons or 5 Floors using the 'Sherman Touchless' buttons, However we can also manufacture custom full height COP's to suit your exact requirements, with any number of floors or provide the fixtures loose to be integrated in to a car re-line or COP of your own manufacture.
